

Environmental Management Policy

Cabling WA Pty Ltd is committed to providing a quality service in a manner that ensures a safe and healthy workplace for our workers and minimizes our potential impact on the environment. We will operate our business for the provision of construction, maintenance and commissioning of electrical network infrastructure including Traffic Management, workshop and support activities in compliance with AS / NZS ISO 14001, all industry standards and relevant environmental legislation and we will strive to use environmental best practices in all we do.

We will;

- Establish and maintain a Safety, Health and Environmental Management System in order to meet our objectives and targets that promotes a sustainable environment and eliminates or controls work related hazards that have the potential to cause injury or harm to workers or the environment.
- Actively promote awareness and understanding of safety, health and environmental issues through training, education and information that may affect their work and encourage all our workers to operate in a responsible manner.
- Support employee consultative participation in order to encourage effective implementation and improvements of our safety, health and environmental culture.
- Commit to fulfil compliance obligations with relevant environmental regulations, licenses and legislation.
- Commit to minimise waste production and pollution as far as practicable and seek to re-use and recycle materials where possible.
- Commit to continual improvement of our operations to minimize the impact on the environment.

Cabling WA Pty Ltd will ensure that all workers are informed of this policy and are aware of their environmental responsibilities in relation to our daily business activities.
